

## **Eclipse Automotive IWG Telco 30.05.2012 WP5**

Oscar Slotosch, Validas

Tilmann Ochs, BMW

Gaël Blondelle, Obeo

Mario Driussi, Das Virtuelle Fahrzeug Forschungsgesellschaft mbH

### **Minutes of Meeting**

· Oscar Slotosch / Validas

#### **Walk on Roadmap towards Development of Qualifiable Eclipse Tools**

- Sixth Steps:
  - Verification
  - Data & Control Coupling Problem
  - Independence Challenge in MF Tools
  - Qualifying COTS Tools
  - Computation of Maturity

More Information: <http://wiki.eclipse.org/images/1/1d/EclipseRoadmapSixth.pdf>

#### **Planning Demonstration of the QPP Concept: The Prototype of Transition Criteria Checker**

- Goals: Eat your own Dog Food
- Transition Criteria Tool Life Cycle of Qualifiable Eclipse Projects
- Milestones
- Effort Monitoring

More Information: <http://wiki.eclipse.org/images/0/08/Demonstrator.pdf>

### **Short Discussion:**

- funding (Prototype)
- review Verification Data
- synergies with Polarsys -> Polarsys intended to qualify Plugins
- Toulouse Meeting
- Planning demonstration of QPP (Qualifiable Plugin Project) Concepts -> only the DO-330 Process

### **Decisions/Outcome:**

- Contribution demonstrator, start with a small demonstration of the DO-330 Process (Validas, BMW contribute)
- Development plan -> 1th Step: Coordinate Project Setup (Validas, BMW)
- To get a funding, we need a prototype
- Toulouse Meeting -> smaller groups with specific topics -> Validas participate next Polarsys WP3 meeting

### **Activities until the next meeting**

- Decision contribution on the demonstrator -> All until next meeting
- Review the Demonstrator.pdf -> all  
(<http://wiki.eclipse.org/images/0/08/Demonstrator.pdf>)
- WP5 Review of Tool Development Plan (ongoing) -> all

**Next Telco 13.06.2012 13pm**
