org.eclipse.osee.mail

### Dependencies

**Required Plug-ins**

Specify the list of plug-ins required for the operation of this plug-in.

- org.eclipse.osee.event

Total: 1

**Automated Management of Dependencies**

Augment the plug-in development classpath with the following dependencies without adding them to the MANIFEST.MF file.

- javax.mail.glassfish
- org.eclipse.osee.framework.jdk.core
- org.eclipse.osee.event

Total: 3

Analyze code and [add dependencies](#) to the MANIFEST.MF via:

Require-Bundle  Import-Package

**Imported Packages**

Specify packages on which this plug-in depends without explicitly identifying their originating plug-in.

- javax.activation
- javax.mail (1.4.1)
- javax.mail.event (1.4.1)
- javax.mail.internet (1.4.1)
- javax.xml.bind.annotation
- org.eclipse.osee.framework.jdk.core.util
- org.eclipse.osee.framework.jdk.core.util.windows

Total: 7
