QUICK FACTS

- Proposal: www.eclipse.org/proposals/scalamodules
- Communications: www.eclipse.org/forums/eclipse.scalamodules
- Mentors: Chris Aniszczyk and Wayne Beaton
- Project Lead: Heiko Seeberger (WeigleWilczek)

PROPOSAL SUMMARY

- The ScalaModules project is a proposed open source project under the **Equinox Project**
- This project will create a **Scala DSL for OSGi**
- It will seamlessly continue the work of the **already released** and adopted ScalaModules project

SCALAMODULES IS A MATURE PROJECT

- Released in version 1.0 in March 2009 (Apache License)
- Currently under active development towards version 2.0 (EPL)
- Hosted at GitHub: github.com/weiglewilczek/scalamodules
- Domain: www.scalamodules.org

MOVING TO ECLIPSE

- Current development will be **continued outside of Eclipse** in order to ship the 2.0 release in summer
- In **parallel** the Eclipse project and the IP process will be started
- **Moving completely to Eclipse** as soon as possible
