Minutes of the Architecture Committee

Place: MDM@Web Project Meeting, Stuttgart
Date/Time: 2016-05-12 – 15:15-15:45 CEST
Minutes: Andreas Benzing, Canoo

Participants: Andreas Benzing   Canoo (Daimler) (chair)
                Jan Blockx   Siemens
                Stefan Ebeling   BMW (by phone)
                Gerwin Mathwig   PL MDM@WEB
                Sven Wittig   AUDI
                Stefan Wartini   MBBM
                - missing -   PL MDM|BL
                - missing -   NorCom
Guests: Christian Weyermann, Dennis Schröder, Hans-Dirk Walter, Thomas Reiner, Alexej Stolipin, Tobias Schneider

Participants are referred to by their initials, i.e. GM refers to Gerwin Mathwig.

1 Angular2 technology proposal for the AC

The intention behind using the combination of Angular and Bootstrap rather than each technology individually is presented by AB. Instead of reimplementing the functionality of Bootstrap, and only using the CSS libraries, the components available from ng2-bootstrap will be used. DS confirms that the current functionality of ng2-bootstrap is sufficient for the intended use or can be implemented with reasonable effort. The proposal [1] is accepted by all present members of the AC.

2 TypeScript technology proposal for the AC

Following the decision for Angular 2, the proposal [2] is also accepted by the present members.

3 Next Meeting

The next AC meeting will be scheduled when needed.
